San Francisco

In June, Diane visited her friends who live in San Francisco, California. This was Diane's first time in the city, and she enjoyed her opportunities to walk around and explore.

On the first day of her trip, Diane visited the Golden Gate Bridge. This red suspension bridge measures 1.7 miles in length. Diane and her friends did not walk across the bridge. However, they viewed it from the Golden Gate National Recreation Area, which offers hiking trails, picnicking areas, and presents spectacular views of the bridge and city. Diane and her friends made sure to take a group photograph here, featuring the bridge in the background.

The next day, Diane and her friends visited Alcatraz Island. This island is located 1.25 miles offshore in the San Francisco Bay. It used to serve as a lighthouse, military fort, and prison. Diane and her friends took a small tour boat across bay to reach the island. Their visit included a guided tour through the old military base and prison. They also took a walk around the island to appreciate some of the native wildlife in addition to the views of the city.

Diane and her friends spent the final day of her visit in San Francisco's downtown area. Diane's favorite part of her entire trip was taking a trolley to transport her up and down the hilly streets of San Francisco. Diane did a lot of shopping downtown on her last day. She and her friends celebrated the end of her visit by having dinner at one of San Francisco's best restaurants.

London

London is a famous and historic city. It is the capital of England in the United Kingdom. The city is quite popular for international tourism because London is home to one of the oldest-standing monarchies in the western hemisphere. Rita and Joanne recently traveled to London. They were very excited for their trip because this was their first journey overseas from the United States.

Among the popular sights that Rita and Joanne visited are Big Ben, Buckingham Palace, and the London Eye. Big Ben is one of London's most famous monuments. It is a large clock tower located at the northern end of Westminster Palace. The clock tower is 96 meters tall. Unfortunately, Rita and Joanne were only able to view the tower from the outside. The women learned that the tower's interior is undergoing renovations until 2021.

Fortunately, the London Eye, the city's famous Ferris wheel, was open to the public. The London Eye is situated along the southern shores of the Thames River. This attraction stands 135 meters high. It is one of London's most well-known spots for gaining aerial views of the city. Each capsule of the Ferris wheel can hold up to 25 passengers. When their capsule stopped at the top of the Ferris wheel, the women took spectacular panoramic photographs of the beautiful cityscape below.

The last place that Rita and Joanne visited was Buckingham Palace, the home of the Queen of England. The women were impressed by the palace's incredible architecture and historical value. Both Rita and Joanne enjoyed watching the Queen's guards outside the palace. These guards wore red tunic uniforms, shiny black boots, and bearskin hats. Despite the women's attempts to catch the attention of the guards, the guards are specifically trained to avoid distractions. Because of this, the guards ignored the women completely.

Joanne and Rita had an amazing time visiting the city of London, and they are inspired to seek more international travel destinations in the future.

Two handwritten signatures in blue ink. The first signature on the left is a stylized, cursive name. The second signature on the right is also cursive and appears to be a name followed by initials.
